

Quality Policy

Quality Policy

We in Nekkar AS shall deliver consistent quality across the Business Units' organisational borderlines and ensure that customer demands, regulatory requirements and contractual agreements are met by competent staff and clear processes.

By developing our employees and Quality Management Systems (QMS), we create a common group and the continuous development of our competence and quality.

Guidelines

Below mentioned guidelines are set up to support the Quality Policy:

- We establish a mutual understanding of the customers' stated requirements and implied expectations.
- We accomplish quality in a cost-efficient manner by striving to do right from the start.
- Facts are the base for our continuous improvements.
- We shall make continuous measurements and follow-up of stated quality goals.
